## first choice in cardiology

### CARDIOLOGIST ADVERTISEMENT

#### Private Practice Cardiologist —Adelaide CBD

SA Heart is currently seeking a Cardiologist to practice privately, supported by a professional patient focused team. We provide services in medical consulting rooms across Adelaide including our main sites which are conveniently collocated with cardiac focused private hospitals.

This exciting opportunity will allow you to structure your practice independently under the governing support of a large established organization.

#### About us

SA Heart is one of the largest cardiology practices in Australia providing expert care to all of our patients.

Established for over 25 years, SA Heart is a privately owned practice with 23 cardiologists offering a comprehensive range of services. Our mission to be 'first choice in cardiology' underpins everything we do enabling us to deliver world class care.

Working at SA Heart you will have access to excellent consulting facilities across Adelaide and state of the art equipment in a collegiate and patient-centered culture. Opportunities for career development, education and research, and to pursue sub-specialisations can be tailored to your individual ambitions and personal needs.

You will benefit from the support and resources of highly skilled staff employed to assist the running of your practice.

With a strong emphasis in culture and a team environment you will be working among passionate staff who value the welfare and respect of our patients and adopt a patient-centric approach, aiming for continued improvement/enabling a holistic approach for our patients and providing a quality service.

#### The Role

The primary role is providing general cardiology with either advanced skills in imaging (echocardiography, stress echocardiography) or heart failure management along with general cardiology consulting. The expectation of this role is to assist SA Heart in accommodating the demand for services in rapid growth areas. The ability to work in a team and high calibre communication skills are a mandatory. Experience and knowledge in CT coronary angiography, MRI, paediatric or congenital echo would also be an advantage.

#### Qualifications Required

- Fellowship of the Royal Australia College of Physicians including advanced training and specialist recognition as a cardiologist
- Eligible for Specialist Medical Registration in Australia

- Eligible for a Medicare Provider number for the provision of rebatable specialist services

### You will be offered the following:

- Opportunity to practice independently under the support of a larger group
- Work in group practice with nationally and internationally recognised clinical leaders
- Learning, development and career progression opportunities
- Opportunities for growth and career advancement with dedicated staff to help you.
- A pathway forward to ownership in the organization
- Work life balance; contributing in a collegiate group with structured holiday and on-call cover
- An in-house referral base to assist in building your practice from the start.
- Positive workplace culture
- The support of an experienced executive team to assist in establishing and ongoing management of the business
- Access to existing relationships within private hospital networks

### South Australia

South Australia is home to the world famous Barossa Valley which lies just 60 km away from the CBD and is one of the country's best wine regions, home to over 200 cellar doors. A stunning coastal city with beautiful beaches, affordable living and vibrant festivals, Adelaide is rich in culture, arts, food and wine.

South Australia offers an excellent lifestyle for both singles and families, high quality private schooling, short commuting distances, breathtaking beaches and beautiful national parks. With the opportunity at SA Heart to work at multiple locations across the state you will be able to see and experience all that the state has to offer.

### Closing date

31 / 01 / 2017
